

# Anti-Aging Treatments

Different anti-aging treatment options

**Botulinum Toxin treatments** - reduce crow's feet & frown lines between the eyebrows

**Dermabrasion** - address aesthetic issues like sun damage, age spots, and wrinkles

**Chemical peel** - improve skin tone and remove signs of aging like wrinkles or age spots

**Laser skin resurfacing** - deep layers of damaged skin, stimulate growth of new skin cell

**Dermal fillers** - removing signs of aging like wrinkles and lines

**Skin rejuvenation** - address skin tone losses, age spots, and wrinkles

**Skin tightening** - address saggy skin on the brow, neck, and lower face

**Juvederm®** - dermal fillers to address signs of aging in the face

**Blepharoplasty** - droopy eyelids, sagging eyebrows, and bags under the eyes

**Hair transplant** - transferring hair to bald areas
